

DAYDREAMER

IN DEN GROSSZÜGIGEN GÄRTEN TRADITIONELLER HERRENHÄUSER IN IRAN UND INDIEN GEHÖREN MIT BUNTEN KISSEN GEPOLSTERTE DIWANE ZU DEN WICHTIGSTEN MÖBELSTÜCKEN. HÄUFIG WERDEN SIE ÜBER EINEM KLEINEN FLUSS UNTER EINEM SCHATTENSPENDENDEN BAUM AUFGESTELLT. DER IDEALE PLATZ, UM IN DER MITTAGSHITZE ZU RELAXEN UND ZU TRÄUMEN.

Inspired by these relaxation spots, Jan Kath designed his first piece of furniture: the DAYDREAMER. Carpets from his collection „ERASED HERITAGE“ (hand-knotted from wool and silk) are used as mattresses and pillows in various sizes. They are, in a traditional oriental style, filled with hand-spun raw cotton – a unique lying experience. The powder-coated steel frame, made in collaboration with Dutch furniture specialists Founded, is designed to support the heavy mattress while remaining light and delicate, so it appears as if the daydreamer were floating.
